MRBA Spotlight On:

ZZ Pizza & Kabob

ZZ Pizza and Kabob
4000 34th Street
Mount Rainier, Maryland 20712
(301) 277-0001

ZZ Pizza & Kabob offers delicious dining, takeout and delivery to Mt Rainier, MD. Although the restaurant had been open for 10 years; Owners David Salcedo and Daniel Cruz took over two years ago with a love of food and passion for the culinary industry. ZZ is a cornerstone in the local community and has been recognized for its outstanding cuisine, great customer service and friendly staff. The restaurant is known for its modern interpretation of classic dishes and its insistence on only using high quality fresh ingredients. They are proud to provide customers with all beef products; and no pork is sold in the store. Business has also been increasing with new customers since adding Breakfast and Hispanic Food to their All Day Menu!!! Daniel states that “he feels respected and loved by all their customers”... and their online reviews confirm it!

CONGRATULATIONS MRBA APRIL SPOTLIGHT

Please follow ZZ Pizza and Kabob on Facebook, Twitter and their website: www.zzpizzaandkabob.com

City of Mount Rainier is “Winning Through Collaboration”

Ronald Hopkins is Mount Rainier’s new Director of Economic Development. Mr. Hopkins has more than 20 years experience with economic development and educational policy experience, particularly in positions that required maintaining relationships with government regulators, outside agencies and nonprofits. He was most recently a business consultant with Prince George’s County Economic Development Corp., where he focused on business support and workforce development. Before that Hopkins was a Program Officer with the D.C.Trust, where he monitored OSSE (Office of the State Superintendent of Education). Hopkins is a veteran of the U.S. Air Force and a 1984 graduate of Syracuse University. He is partnering with MRBA on several projects such as Mount Rainier 2019 Investors Open House. Mr. Hopkins’ goal is “to provide resources so our businesses can prosper and be self-sustaining in the future”.
